Photobooks are ideal for telling a good story – they are emotional and straightforward. Get to know this special art form. Whether you would just like to visit the exhibition or prefer to create your own photobook – all are welcome!

“World in Transition”, a mobile photobook project, is brought to Kassel by Montag Stiftung Kunst und Gesellschaft, a foundation for the arts in society based in Bonn and the Cologne based PhotoBookMuseum. We offer you various opportunities to engage on issues of global change, photobooks and photography at an outdoor exhibition in 5 containers on the open square just outside documenta hall - come rain or shine.

The exhibition features artistic photobooks by renowned international photographers that deal with various aspects of worldwide transformations: **digitisation, climate change, migration, new forms of economic and political crisis.** Developments that affect us all.

Visit the Courage, our special gathering place! The ideal hub to meet other visitors and like-minded people. Create your own exhibition catalogue or produce your own photobook. Our workshops provide you with a team of professional photobook designers and photographers that support you with every step of the production – **no skills required!**

**Free entry &
